

Science Long Term Overview: **Key Stage 1**

Year B 2021-22	Living Things and their Habitats	Animals inc humans	Everyday Materials	Seasonal Changes	Plants
Rationale	Curiosity Appreciation about and for the world around them. Wellbeing	Appreciation about and for the world around them Respect for our environment and nature	Problem-solving Curiosity Appreciation about and for the world around them.	Curiosity Appreciation about and for the world around them. Respect for our environment and nature	Respect for our environment and nature Curiosity Discovery Creativity Problem-solving
Focus	<ul style="list-style-type: none"> Explore and compare the differences between things that are living, dead, and things that have never been alive Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other 	<ul style="list-style-type: none"> Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals Identify and name a variety of common animals that are carnivores, herbivores and omnivores Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. 	<ul style="list-style-type: none"> Distinguish between an object and the material from which it is made Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock. Describe the simple physical properties of a variety of everyday materials Compare and group together a variety of everyday materials on the basis of their simple physical properties 	<ul style="list-style-type: none"> Observe changes across the four seasons Observe and describe weather associated with the seasons and how day length varies 	<ul style="list-style-type: none"> Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees Identify and describe the basic structure of a variety of common flowering plants, including trees
Changing seasons – ongoing; also links to World Wise and PSHE where appropriate. Cross-curricular links to DT, food technology and geography.					

Year A 2020-21	Living Things and their Habitats	Animals inc. humans	Plants	Materials
Rationale	Curiosity about the world around them A sense of awe and wonder Community Global citizenship	Healthy lifestyles Consequences Responsibility Empathy Sense of self	Curiosity about the world around them A sense of awe and wonder	Global citizens Problem-solving Responsibility
Focus	<ul style="list-style-type: none"> Identify and name a variety of plants and animals in their habitats, including microhabitats Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food 	<ul style="list-style-type: none"> Notice that animals, including humans, have offspring which grow into adults Find out about and describe the basic needs of animals, including humans, for survival (water, food and air) Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene 	<ul style="list-style-type: none"> Observe and describe how seeds and bulbs grow into mature plants Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy 	<ul style="list-style-type: none"> Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses Find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching
Changing seasons – ongoing; also links to World Wise and PSHE where appropriate. Cross-curricular links to DT, food technology and geography.				

Science Long Term Overview: **Lower Key Stage 2**

Year A 2021-2022	States of Matter	Electricity	Sound	Living Things and their Habitats	Animals, inc. humans
Rationale	Problem-solving Curiosity Appreciation about and for the world around them.	Safety Responsibility Curiosity	Curiosity Problem-solving A sense of awe and wonder	Responsibility Curiosity Appreciation about and for the world around them A sense of awe and wonder	Responsibility Healthy lifestyles
Focus	<ul style="list-style-type: none"> Compare and group materials together, according to whether they are solids, liquids or gases Observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C) Identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature 	<ul style="list-style-type: none"> Identify common appliances that run on electricity Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit Recognise some common conductors and insulators, and associate metals with being good conductors 	<ul style="list-style-type: none"> Identify how sounds are made, associating some of them with something vibrating Recognise that vibrations from sounds travel through a medium to the ear Find patterns between the pitch of a sound and features of the object that produced it Find patterns between the volume of a sound and the strength of the vibrations that produced it Recognise that sounds get fainter as the distance from the sound source increases 	<ul style="list-style-type: none"> Recognise that living things can be grouped in a variety of ways Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment Recognise that environments can change and that this can sometimes pose dangers to living things 	<ul style="list-style-type: none"> Describe the simple functions of the basic parts of the digestive system in humans Identify the different types of teeth in humans and their simple functions Construct and interpret a variety of food chains, identifying producers, predators and prey
Links to World Wise. Cross-curricular links to DT. Fieldwork, trips and visitors where appropriate.					

Year B 2020-21	Rocks	Plants	Animals, inc. humans	Light	Forces and Magnets
Rationale	Curiosity Appreciation about and for the world around them	Respect for our environment and nature Curiosity Discovery Responsibility	Responsibility Healthy lifestyles	Curiosity Appreciation about and for the world around them Safety A sense of awe and wonder	Curiosity Appreciation about and for the world around them A sense of awe and wonder
Focus	<ul style="list-style-type: none"> • Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties • Describe in simple terms how fossils are formed when things that have lived are trapped within rock • Recognise that soils are made from rocks and organic matter 	<ul style="list-style-type: none"> • Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers • Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant • Investigate the way in which water is transported within plants • Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal 	<ul style="list-style-type: none"> • Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat • Identify that humans and some other animals have skeletons and muscles for support, protection and movement 	<ul style="list-style-type: none"> • Recognise that they need light in order to see things and that dark is the absence of light • Notice that light is reflected from surfaces • Recognise that light from the sun can be dangerous and that there are ways to protect their eyes • Recognise that shadows are formed when the light from a light source is blocked by a solid object • Find patterns in the way that the size of shadows change 	<ul style="list-style-type: none"> • Compare how things move on different surfaces • Notice that some forces need contact between two objects, but magnetic forces can act at a distance • Observe how magnets attract or repel each other and attract some materials and not others • Compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials • Describe magnets as having two poles • Predict whether two magnets will attract or repel each other, depending on which poles are facing
Links to World Wise. Cross-curricular links to DT. Fieldwork, trips and visitors where appropriate.					

Science Long Term Overview: Upper Key Stage 2

Year B 2022-23	Properties of changes of materials	Properties of changes of materials	Forces	Living Things and their Habitats Animals inc. humans	Earth and Space
Rationale	Responsibility Problem-solving Sustainability A sense of awe and wonder	Curiosity Appreciation about and for the world around them Problem-solving	Safety Curiosity Appreciation about and for the world around them Problem-solving A sense of awe and wonder	Appreciation about and for the world around them Identity Healthy lifestyles	Responsibility Sustainability Global citizenship Curiosity Appreciation about and for the world around them A sense of awe and wonder
Focus	<ul style="list-style-type: none"> Compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal) and response to magnets Know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution Give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic 	<ul style="list-style-type: none"> Demonstrate that dissolving, mixing and changes of state are reversible changes Explain that some changes result in the formation of new materials and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda 	<ul style="list-style-type: none"> Explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object Identify the effects of air resistance, water resistance and friction, that act between moving surfaces Recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect 	<ul style="list-style-type: none"> Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird Describe the life process of reproduction in some plants and animals Describe the changes as humans develop to old age 	<ul style="list-style-type: none"> Describe the movement of the Earth, and other planets, relative to the sun in the solar system Describe the movement of the moon relative to the Earth Describe the sun, Earth and moon as approximately spherical bodies Use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky
Links to World Wise and PSHE, where appropriate; Science Week and STEM themed weeks; trips and visitors and moon rocks loan					

Year A 2021-22	Living Things and their Habitats	Micro-organisms Light	Electricity	Animals inc. humans	Evolution and Inheritance
Rationale	Responsibility Curiosity Appreciation about and for the world around them A sense of awe and wonder	Curiosity Appreciation about and for the world around them Safety A sense of awe and wonder Healthy lifestyles	Safety Responsibility Curiosity	Responsibility Safety Identity Rights Healthy lifestyle	Responsibility Problem-solving Sustainability A sense of awe and wonder
Focus	<ul style="list-style-type: none"> Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals (Aut 2) Give reasons for classifying plants and animals based on specific characteristics 	<ul style="list-style-type: none"> Recognise that light appears to travel in straight lines Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them 	<ul style="list-style-type: none"> Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in a circuit Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches Use recognised symbols when representing a simple circuit in a diagram 	<ul style="list-style-type: none"> Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function Describe the ways in which nutrients and water are transported within animals, including humans 	<ul style="list-style-type: none"> Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution
Links to World Wise and PSHE, where appropriate; Science Week and STEM themed weeks; trips and visitors.
